SUMMARY

Enthusiastic and detail-oriented Information Technology student aspiring to leverage classroom knowledge and hands-on experience in a technology internship. Strong problem-solving abilities coupled with a keen interest in exploring emerging technologies. Eager to contribute to innovative projects, collaborate with multidisciplinary teams, and gain valuable real-world insights.

EDUCATION

SaiGon University 2020
Information Technology

SKILLS

Languages: PHP, C/C++, C#, Python, Java, JavaScript, HTML/CSS
Tools: Git/GitHub, Visual Studio Code (VS Code), MySQL, SQL Server, Visual Studio, Android Studio , Netbeans.

PROJECTS

- E-Commerce Website (PHP)** 2022
 - Developed a web-based e-commerce platform using PHP and MySQL.
 - Implemented features enabling admins and users to browse products, manage shopping carts, and complete transactions.
- Python Virtual Assistant for Customer Care** 2022
 - Designed and deployed a Python-based virtual assistant to assist with customer inquiries.
 - Utilized natural language processing (NLP) techniques to handle conversational interactions.
- Hotel Chain Management System (C#)** 2023
 - Developed a comprehensive management system for a hotel chain using C#.
 - Implemented features for reservation management, staff administration, customer relations, payments, and account management.
- Python Combat Shooting Game** 2024
 - Created a multiplayer combat shooting game using Python.
 - Implemented game mechanics including player movement, weapon systems, and network synchronization via socket connections. Various game modes were included such as bot battles and player versus player (PvP).
- Java Spring MVC E-Commerce Website** 2024
 - Developed a scalable and responsive e-commerce platform using Java and Spring Framework.
 - Integrated MySQL database handling for admins and users to browse products, manage carts, and process payments.
- Android English Learning Application** 2024
 - Designed and developed an Android app for learning English vocabulary and pronunciation.
 - Incorporated interactive lessons, quizzes, and progress tracking features. Implemented payment integration using Zalo Pay and utilized Firebase services including Firebase Authentication, Cloud Firestore, Firebase Storage, and Firebase ML.
